# *Find Your Path With Heart*

## **THE SPIRITUAL HEALING PROCESS**

Open your heart and soul to mental, emotional, physical, and spiritual transformation, balance, and well being - and find your path with heart. This three-part healing process will show you the way through Life Counseling, Light and Energy Healing, and Soul Reading.

### **Life Counseling**

Beginning with Life Counseling, you gently enter into a conversation to explore the issues that are uppermost in your mind and heart. What are your challenges? What are you experiencing in your body? Is your life experience in alignment with the truth of your being? What is your longing? How do you wish to grow? Are your relationships healthy? Are you living in abundance? Where do you feel blocked?

All these matters are discussed and simply held in awareness with spiritual consciousness as witness.

*“Anita Eubank has a great ability to transform people's lives and guide people on the journey of soul enlightenment. She is also a gifted and powerful spiritual healer.”*

*Master Zhi Gang Sha - Founder of the Institute of Soul, Mind, Body Medicine*

## Light and Energy Healing

In the next process, Light and Energy Healing, you are invited to rest deeply on a therapeutic bodywork table as the highest vibrations of light and pure love begin flowing through your body and energy field.

This nurturing process opens your energy pathways, removes blocks, and balances the chakras.

It transforms old energy patterns to remove physical and emotional pain, and opens your heart to give and receive love. This state of clarity allows you to experience peace and the beauty of your soul essence.

## Soul Reading

From this place of receptivity the final process, Soul Reading, is given. Your soul speaks telepathically to share its divine insight and guidance. Obstacles and blockages seem to melt away. Problems come into perspective, and your next steps are illuminated towards living your life in alignment with your soul purpose and the truth of your heart.

*“The rainbow is a symbol for Anita. Her heart opens and the rainbow comes from her heart to another person's heart. At first it seems to touch the heart chakra and then it balances everything. The person becomes a beautiful ball of white light. It seems to be a blessing.”*

*Roy Goya - Clairvoyant, medium, spiritual counselor*
